# Week 3 – Dashboard Development & Data Visualization Report

DataVisualization Associate Internship— Excelerate
Prepared by: Sudheer Muthyala
Team: Team - 34

## Table of Contents

- 1. Introduction
- 2. Dashboard Design
- 3. Dashboard Visualizations
- 4. SQL Validation
- 5. Business Insights
- 6. Recommendations
- 7. Conclusion

# 1. Introduction

## 1. Introduction.1

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 1:

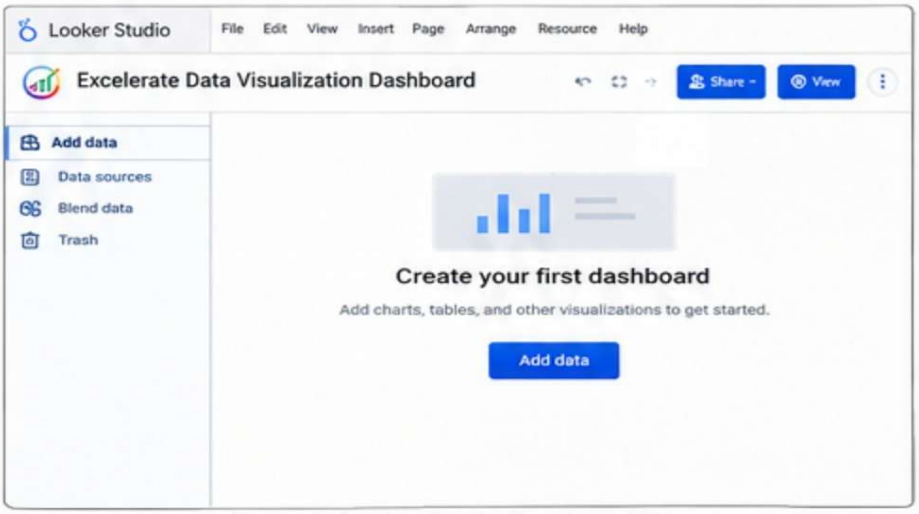

**Figure 1: Looker Studio Dashboard Home**

SQL Validation Query:

SELECT ...;

Observation:

Describe the result shown in the dashboard.

Business Insight:

Explain the key takeaway.

## 1. Introduction.2

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 2:

**Figure 2: Dashboard Overview**

SQL Validation Query:

SELECT ...;

Observation:

Describe the result shown in the dashboard.

Business Insight:

Explain the key takeaway.

## 1. Introduction.3

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 3:

**Figure 3: KPI Cards**

SQL Validation Query:

SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

### 1. Introduction.4

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 4:

Figure 4: Filters Panel

SQL Validation Query:

```
SELECT ...;
```

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 2. Dashboard Design

### 2. Dashboard Design.1

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 5:

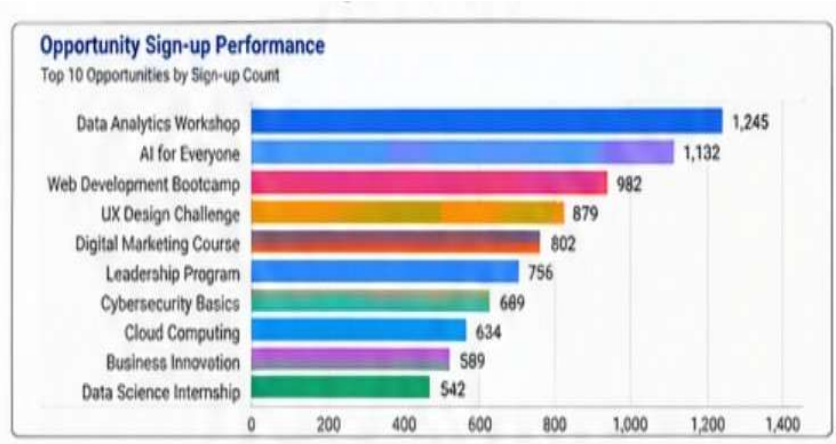

Figure 5: Opportunity Sign-up Performance

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 2. Dashboard Design.2

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 6:

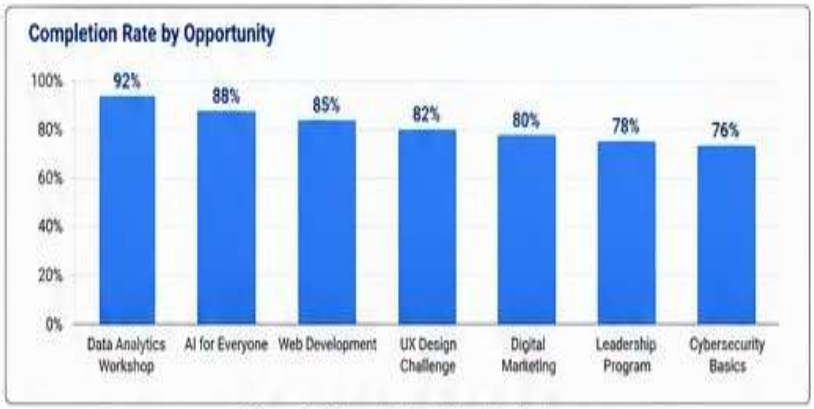

Figure 6: Completion Rate Analysis

SQL Validation Query:

SELECT ...;

Observation:

Describe the result shown in the dashboard.

Business Insight:

Explain the key takeaway.

## 2. Dashboard Design.3

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 7:

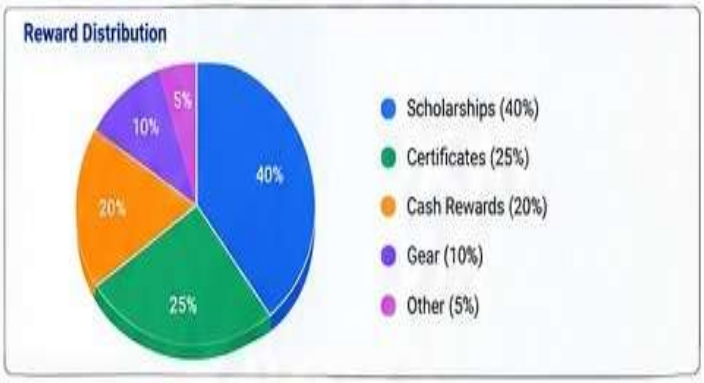

Figure 7: Reward Distribution

SQL Validation Query:

SELECT ...;

Observation:

Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 2. Dashboard Design.4

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 8:

Figure 8: Applications Last 7 Days

SQL Validation Query:

```
SELECT ...;
```

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

# 3. Dashboard Visualizations

## 3. Dashboard Visualizations.1

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 9:

Figure 9: Monthly Application Trends

SQL Validation Query:

SELECT ...;

Observation:

Describe the result shown in the dashboard.

Business Insight:

Explain the key takeaway.

## 3. Dashboard Visualizations.2

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 10:

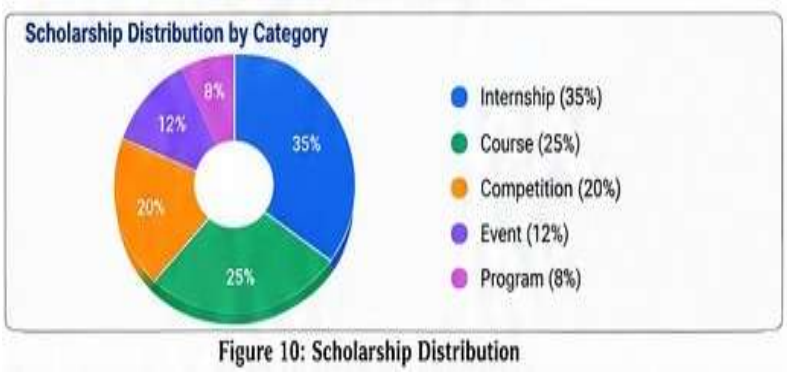

Figure 10: Scholarship Distribution

SQL Validation Query:

SELECT ...;

Observation:

Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 3. Dashboard Visualizations.3

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot. Figure 11:

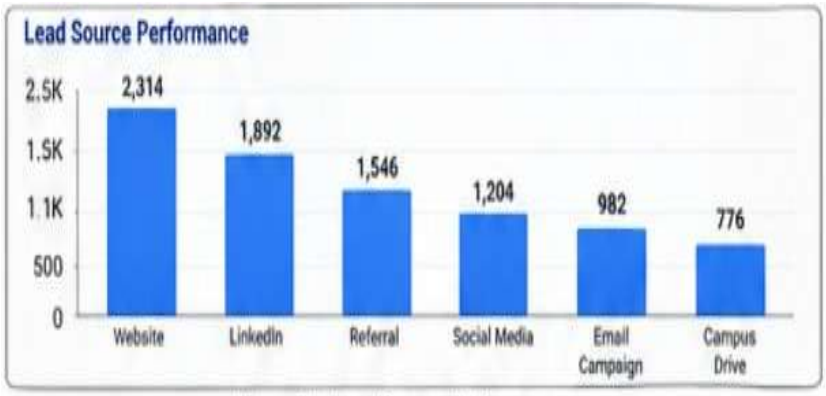

Figure 11: Lead Source Performance

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 3. Dashboard Visualizations.4

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot. Figure 12:

Figure 12: Quarterly Comparison

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 4. SQL Validation

### 4. SQL Validation.1

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot. Figure 13:

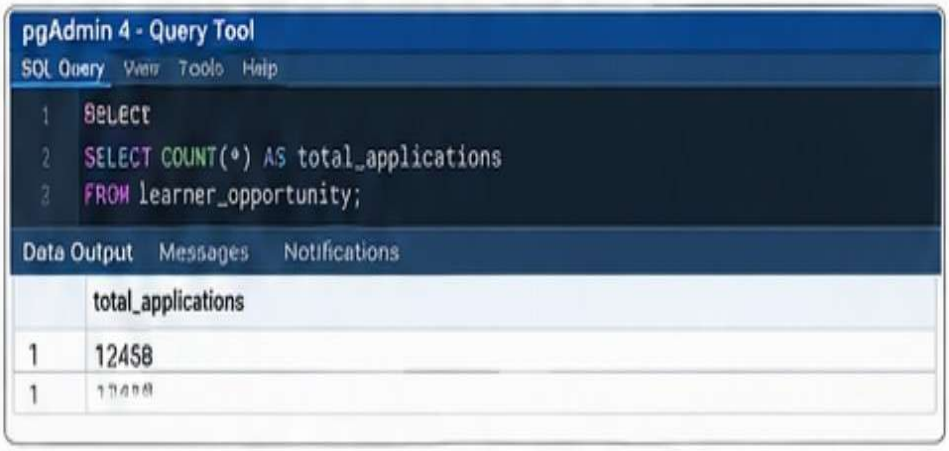

Figure 13: SQL Validation – Total Applications

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 4. SQL Validation.2

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 14:

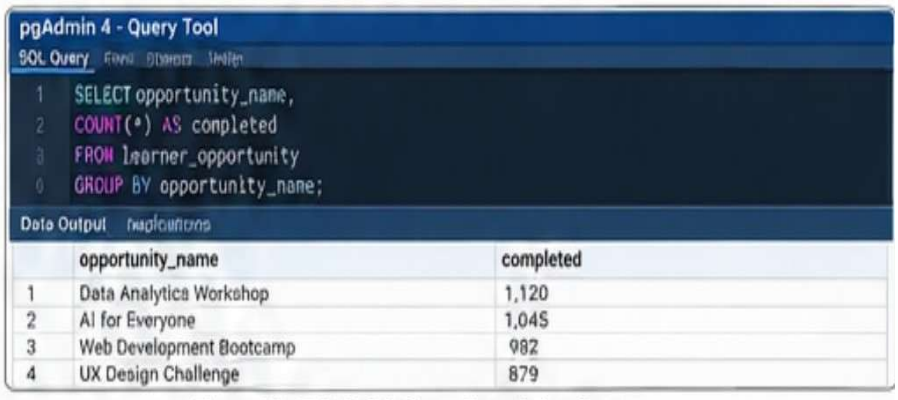

Figure 14: SQL Validation – Completion Rate

SQL Validation Query:

SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 4. SQL Validation.3

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 15:

**Figure 15: SQL Validation – Reward Distribution**

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 4. SQL Validation.4

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot. Figure 16:

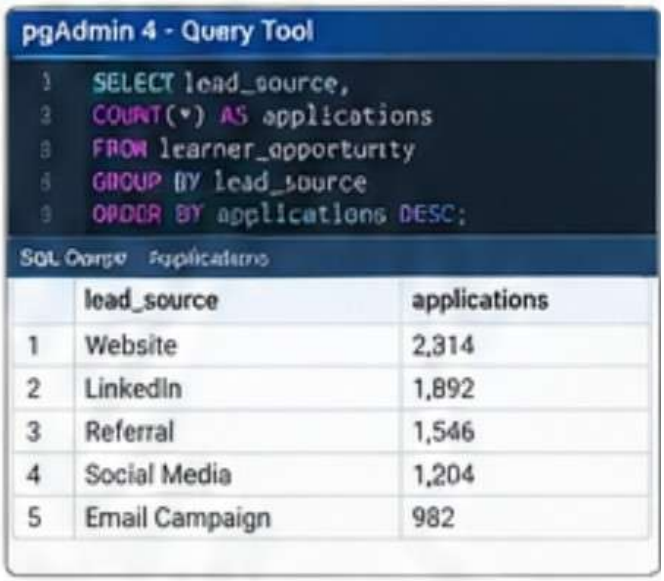

**Figure 16: SQL Validation – Lead Source**

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 5. Business Insights

### 5. Business Insights.1

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot. Figure 17:

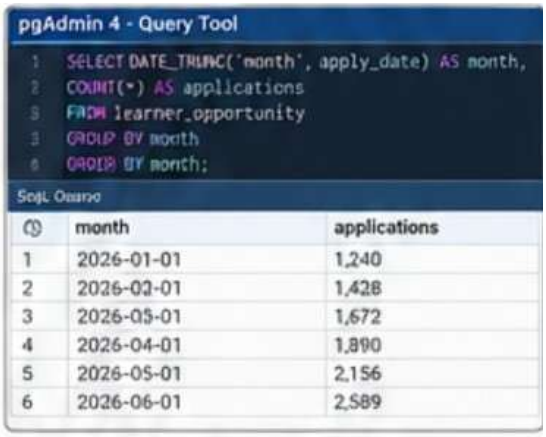

**Figure 17: SQL Validation – Monthly Trend**

SQL Validation Query:

SELECT ...;

Observation:

Describe the result shown in the dashboard.

Business Insight:

Explain the key takeaway.

## 5. Business Insights.2

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

Figure 18:

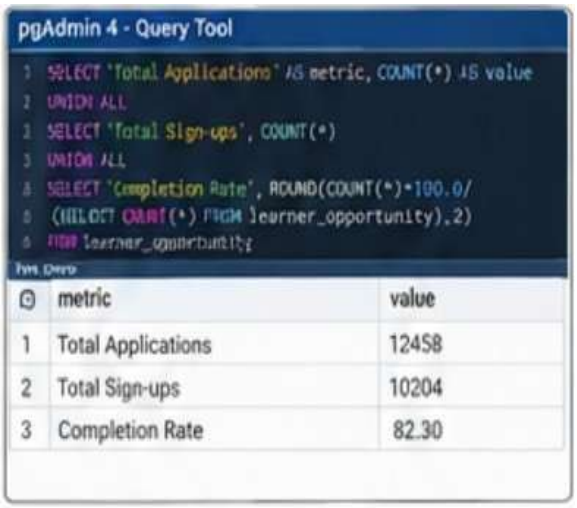

**Figure 18: Dashboard Validation**

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 5. Business Insights.3

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 5. Business Insights.4

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

# 6. Recommendations

## 6. Recommendations.1

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 6. Recommendations.2

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 6. Recommendations.3

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 6. Recommendations.4

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

## 7. Conclusion

### 7. Conclusion.1

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

### 7. Conclusion.2

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

### 7. Conclusion.3

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway.

### 7. Conclusion.4

This section explains the objective, methodology, SQL validation, dashboard interpretation, and business significance. Replace the placeholder below with the corresponding Looker Studio dashboard, SQL query, or output screenshot.

SQL Validation Query:
SELECT ...;

Observation:
Describe the result shown in the dashboard.

Business Insight:
Explain the key takeaway

## Conclusion

This report documents the dashboard development process, SQL validation, key analytical findings, business recommendations, and confirms readiness of the integrated dataset for reporting. Replace placeholders with your actual dashboard screenshots before submission.
